

# WINE OF THE MONTH

**10% OFF for All Customers**  
**Only in January**

## Pas de Probleme Pinot Noir

Pas de Probleme Pinot Noir is made from sustainably farmed grapes grown in the Languedoc region of Southern France. It's a warmer climate than in Pinot's home turf region of Burgundy, but this vineyard does share a Burgundian trait of limestone soil which brings balance and minerality to the wine. Burgundy is expensive, but Languedoc wines can be incredible values and this is a great way to taste true French Pinot Noir without breaking the bank. You may face many problems in the new year, but this wine won't be one of them!
